

WE

ALL

APPRECIATE IT

There was a big debate in 7th, 8th, and 9th grade at our school. We only had 20 minutes to eat lunch and the kids wanted more time. Mr. M heard our request and gave students 10 additional minutes to digest and play around. In winter, we go to the gym and play basketball and in summer, we play outside. He put on a big tournament and we all made teams and played each other. During lunch, we also get to socialize with friends we don't see in other classes. I now look forward to lunch. Mr. M, we all appreciate it!
