

OUR COMMUNITY

**HAS REALLY COME
TO HELP OUT**

A student in my school is terminally ill, making things very tough for him and his family. The amount of support and help needed from the community is crazy, but our community has really come to help out. Between the many fundraisers and activities planned for the student, our community has made a huge impact on the family's life.

This kind of situation is not something that is very common, but the community has come together over the past year. This has shown so much respect for the people in our community.
